About us

The company was founded in 2019, Urbocrew is one of the most respected works at height companies in India.

Since 2019, Urbocrew has served the Indian market with the same expertise and professionalism, working with various reputed companies on various projects.

In addition to ladder manufacture, Urbocrew has now come to represent the leading name in scaffolding rental & hire, providing mobile towers to clients across India. These aluminium towers are mobile, lightweight and are relied on by leading companies to keep their workforce safe.

Company History

Urbocrew Services Pvt. Ltd. was founded by Afzal ur Rahaman in 2019. Since 20 years we have been working for Electrical, Interior and Architectural Projects where we had been using Aluminum Ladders and MS Scaffoldings manufactured by many companies in which perfection was not there, faced many difficulties while working on heights. We had seen a dream to make a perfect Aluminum Ladder from all the corners so decided to startup manufacturing the Aluminum Ladders and MS Scaffolding.

Mission & Vision

Since it is founded nearly 2 years ago, Urbocrew has always stood for quality. We use great design and high quality materials to create products that can be relied on to keep people safe.

Our mission is to improve safety where the people work at height - whether on the construction site or in the home.

Our focus is always on safety first - we educate users how to safely work at heights and our products are built to prevent misuse and limit risk. Our products are easy to set up and safe to use.

We further focus on improving safety when compared to competitor companies. We believe that by providing workers with the right tools and training, we can professionalise Construction Industry in India and create a safe work environment for all. Together we can build a safer and prosperous India.

We further focus on providing high quality services in relation to various Facility Management Services.
